

Product description

Extruded aluminium profiles – rust free.

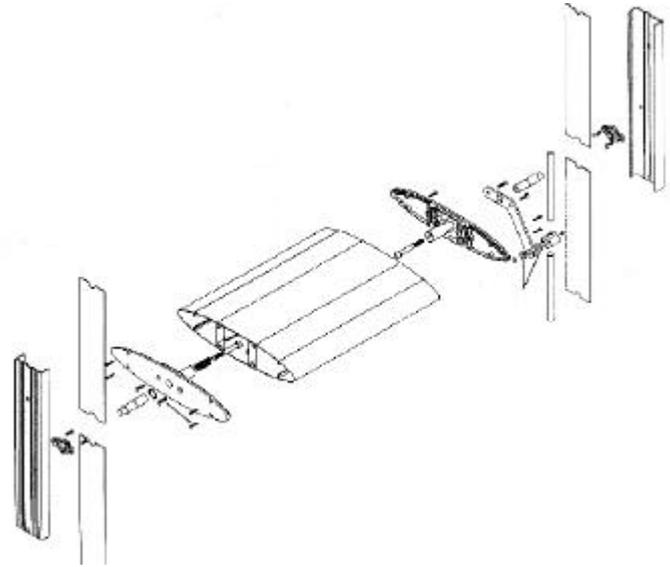

Vertical or horizontal application.

Variable pitch.

A wide range of colours and coatings are available.

Remote control with motorised sun tracking and lux level sensors (adjustable).

Blade widths adjust – 200, 300, 400 mm
Fixed – from 400 to 800 mm.

Fixing

End fixing plates in cast aluminium for extruded blades.

Irregular sizes, fabricated blades have purpose made endcaps.

Blades can be mounted in various modes to suit the angle and elevation of the sun and the orientation of the facade.

Contact your nearest RVI Service Centre to obtain the ideal dimensions for your Icarus sun shading system.
